

Beal Bank
Dallas Regional Science
and Engineering Fair

Beal Bank

October, 2009

Dear Special Award Coordinator :

This letter is an invitation to participate as a Special Award donor at the 2010 Beal Bank Dallas Regional Science & Engineering Fair, one of the largest student Science Fairs in the country. Each year, thousands of local Middle and High School students compete to qualify for our Regional Science Fair, where well over 1,000 judges and competitors gather to review and exhibit the best Dallas-area science projects. We encourage area businesses as well as professional and educational organizations to judge and award their own prizes at the Fair. All Special Awards are typically highlighted in the Awards Banquet Program, on our official website DallasScienceFair.org and in local news media.

The next Fair will take place in Fair Park, Dallas, Saturday February 27, 2010.

NEW THIS YEAR !! – You may register/edit your details online at the Special Awards page of DallasScienceFair.org instead of completing paper forms. You may also send and update details of your judges online.

We are also enclosing printed information and forms - Donor Prize Form, Judges Form, and Donor Information Sheet. We ask that the **Donor Prize Form**, which indicates your intention to offer Special Awards, be completed online or mailed to us by **December 31, 2009**. Your prizes and judge details may be sent later, but are needed by February 13, 2010 to give us enough time to prepare.

If you have any questions about Special Awards, please feel free to email scifair@physics.smu.edu

Thank you for your support and consideration!

Simon Dalley
Fair President
